The Canadian Foundation for Dietetic Research Announces Funding for Six Research Projects

Toronto, May 5, 2021 - This month the Canadian Foundation for Dietetic Research (CFDR) approved funding of \$104,717 for six projects under its 2021 Annual Grants Competition.

This year's 6 grantees are:

Examining longitudinal associations between dietary sugar and anthropometric measures among young children in the Guelph Family Health Study

Andrea Buchholz & Anisha Mahajan University of Guelph

Informing evidence-based practice in nutritional genomics: an educational needs assessment of dietitians and development of an evidence summary prototype

Sophie Desroches Université Laval

Plant-based dietary patterns and coronary artery calcification in adults with heterozygous familial hypercholesterolemia

Jean-Philippe Drouin-Chartier Université Laval

Association between nutrition, biomarkers and genetics on male fertility

Ahmed El-Sohemy & Matineh Rastegar Panah University of Toronto

Exploring registered dietitians' perception, knowledge of, and experience with implementation of weight-related evidence within the nutrition care process

Shannan Grant & Phillip Joy Mount Saint Vincent University

Development of a self-management App for adults with inflammatory bowel disease (IBD)

Kevan Jacobson & Jessica Pirnak University of British Columbia

The Canadian Foundation for Dietetic Research was created in 1991 by Dietitians of Canada (DC) to support applied nutrition and dietetic practice research. Thanks to the generous support of corporate donors and individual members of Dietitians of Canada, in its history CFDR has funded 156 research teams across the country, awarding more than \$2.2 million in grants. The CFDR research program supports the Foundation's mission: To cultivate and fund practice-based dietetic research.

Your donation to Canadian Foundation for Dietetic Research will help to fund practice-based dietetic research so that dietitians can ask the important nutrition-related questions and seek answers, ultimately leading to improved patient care, and the health of Canadians.
